Auctioneer's Note: Due to the death of Leon Page, Derek & Betty have decided to quickly sell all of their dairy cows & calves and their milking equipment. This is an EXCELLENT Jersey herd! They have produced many outstanding show cows & heifers as well as good quality milk cows. There is something for every dairy farmer. Cows are broke to lock ups and free stall barn. Animals have been Bangs & TB tested. Trucking can be arranged to go anywhere. For pictures and more info visit www.chuppsauction.com.

BidSpotter.com's New Partnership with AuctionServices.com Promises to Enhance the Online Bidding Experience

Seattle, WA, February 1, 2016 - - BidSpotter.com, the world leader in interactive auctions and AuctionServices.com, the largest auctioneer-centric web development company are announcing a new strategic business relationship. Together, they will rapidly deploy new web technology to enhance the online bidding experience for buyers and brand recognition for auctioneers.

BidSpotter.com is a cornerstone for online auctions in the agricultural, industrial and commercial arenas, providing online bidding technology for professional auctioneers. Billions of dollars' worth of assets are offered at auction on BidSpotter.com annually. In 2016 BidSpotter.com will be rolling out with their proven bidding experience directly on the auctioneer's website in a true white label, or private label, experience.

"This is the perfect blend of technology for established auction companies. Auctioneers focus their promotional budgets to drive traffic to their website, building their brand while still getting the benefit of the hundreds of thousands of regular bidders who frequent the BidSpotter.com auction platform," said Nancy Romanus, CEO of AuctionServices.com. "There is nothing in the marketplace today that offers this level of refinement or is backed by a company as successful as BidSpotter.com."

AuctionServices.com will be installing this technology on existing websites while also working with auction companies to rebrand their online profile and incorporating this technology into newly developed websites. AuctionServices.com brings a team of developers and designers with over 100 collective years of auction and technology experience. "The level of web development and customization necessary to provide a true white label bidding platform on an auctioneer's website makes AuctionServices.com a logical choice for BidSpotter.com. We are excited to be working with them," noted Tim Hill VP of Sales for BidSpotter.com.

Together BidSpotter.com and AuctionServices.com aim to accelerate the adoption of this technology in the auction market, with the goal of delivering a better buying experience for consumers and a better branding opportunity for auctioneers.

About BidSpotter.com

As the leader in broadcasting live and timed Industrial, Construction and Agriculture auctions, BidSpotter.com is dedicated to providing customers with top-tier service and the best online bidding experience. BidSpotter.com is in a class of its own with 20+ years of industry expertise, round-the-clock customer support, and a cutting-edge online bidding platform. As more sellers and buyers are looking to expand their business, BidSpotter.com continues to be the online bidding solution of choice.

SERVING THE AUCTION INDUSTRY SINCE 1973

Martin & Martin Auctioneers, Inc. can say with pride that we have been in the auction business for over thirty-nine years. In 1973, George Martin and his family began with weekend farm auctions. As machine technology increased and the South began to move from farming to industry, the auctions progressed as well. The business has grown and the market has expanded, but many things remain the same. Martin & Martin's strong commitment to the auction industry, as well as an absolute dedication to our buyers and sellers is unwavering. We pride ourselves in knowing that each member of our auction team has excellent business ethics.
